Example of Depreciation:

- Suppose any purchases a piece of equipment for 10,000. The equipment has a useful life of 5 years and a residual value of 2,000. Using the straight-line method, the depreciation would be:
- Depreciation = $(10,000 - 2,000) / 5 = 8,000 / 5 =$

Security & Privacy Guidelines (Important)

The Video Lecture in LMS portal has been upgraded with a new design and enhanced security protocols to protect university intellectual property. Please note the following system behaviours:

- **Secure Embedded Viewing:** All video lectures are securely embedded directly within the university's LMS portal. You do not need a YouTube account to view them.
- **Restricted Link Access:** To protect the privacy and copyright of the educational materials, **direct links to the source videos are disabled**. You cannot view these lectures directly on YouTube.
- **Disabled Controls:** Standard YouTube sharing features, including the "Watch on YouTube" button, title links, and "Copy Video URL" options, have been restricted by the administration.
- **Right-Click Protection:** Context menus (right-clicking) on the video player are disabled to prevent unauthorized downloading or link extraction.
- **Session Tracking:** Video access is tied to your specific *lectureId* and active LMS login session. Sharing the page URL with an unenrolled user will result in an access error.

Troubleshooting Note

- *Please note the system advisory at the top of the page:* If you ever have trouble seeing the most recent updates to a file, clear your browser's cache memory to ensure you are downloading the latest version of the SLM.
